PART 1226-GENERAL INDUSTRIAL EQUIP-MENT

[Limitation Order L-123, as Amended Oct. 6, 19441

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials (including components) and facilities used in the manufacture of general industrial equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.1 General Limitation Order L-123—(a) Equipment which may not be delivered without an AA-5 or better rating. No person (including a manufacturer, distributor, or dealer) shall accept any order for or deliver, and no person shall accept delivery of, any new item of the following equipment (more fully described in the attached List A) except for an order bearing a preference rating of AA-5 or higher:

- 1. Air filters.

- 5. Compressors.
- Ceramic machinery and equipment.

- tional horsepower).
- 11. Fans, blowers and exhausters.
- 12. Flexible metallic hose, tubing and fittings.
- 13. Heat exchangers.
- 14. High pressure blowers.
- 15. Lifting magnets.

- 23. Insulation blowing machines. 24. Electroplating and anodizing equip-
- ment. 25. Oxy-acetylene apparatus
 - 26. Portable conveyors.

Deliveries within a company. The above restriction applies to deliveries from one department (a branch, division, or section) of a single organization to another department of the same organization when the item is for incorporation into other machinery produced by that organization, or when it is for installation and operation for the organization's own use.

The restriction does not apply to deliveries from one department to another of the same organization, of items which

it is to resell as such.

(b) Certain transactions for which no rating is required by this order. The above restriction does not apply to the

following transactions:

(1) Repair parts. Delivery of repair parts for any item (but no complete item may be considered as a repair part and delivered under this exemption, even though it could be used as a component part of another item or of machinery not covered by this order).

(2) Farm supplies. When items which are farm supplies under Priorities Regulation 19 are delivered to a farmer or dealer upon a certificate in accordance

with that regulation.

(3) Petroleum industry item. When items used in the petroleum industry and covered by Order P-98-c are delivered in accordance with that order.

(4) Items no longer needed. When an item is returned to the person from whom it was obtained, or when it can no longer be used for the purpose for which priorities assistance was given to help obtain it and the holder disposes of it in accordance with applicable provisions of Priorities Regulations 1 or 13.

(5) Items ordered and put in transit before the restriction became applicable. The completion of delivery of items which had been placed in the hands of a common or contract carrier for shipment to the customer prior to the date upon which the restriction in (a) became applicable.

(6) Certain orders rated below AA-5 but unfilled when restriction became applicable. Delivery to fill any rated order which was rated below AA-5 and could have been filled just before the date upon which the restriction in (a) became applicable without violating any WPB order, rule or regulation.

(7) Deliveries of machinery not covered by this order. The delivery of new machinery, not covered by this order. into which an item has been incorporated as a necessary component part (or which is delivered in unassembled condition with an item which is a necessary component part, for assembly at the

site of installation).
(8) Used items. The delivery of any item which has been sold to a person acquiring it for use, and put into regular use by him.

(9) Specific authorizations. Deliveries specifically authorized or directed by the War Production Board.

(10) The replacement of a fractional horsepower electric motor or generator which is traded-in when repair is needed. When a fractional horsepower electric motor or generator is delivered to a householder or other user solely for replacement of a used one which needs repair and the seller, in accordance with his regular business practice, takes the broken down or defective motor or generator in trade and repairs it or delivers it to another person who will repair it (whenever repair is practicable) so that it will be resold under similar conditions (or scraps it promptly when repair is impracticable).

(It must be noted that no repairman or other person may deliver such an item unless he either complies with the foregoing conditions, or receives a AA-5 or higher rating for the delivery from his customer, even though he has obtained the items under a regulation or order which assigns a rating for repair or maintenance purposes, such as the following: CMP Regulations 5, 5A, or 9A; or Orders L-79, P-126, or P-148.)

This exemption permits a dealer not having repair facilities to deliver such a traded-in motor or generator, if it is repairable, to the manufacturer or some other supplier who will repair it or have it repaired within a reasonable time, and get one in exchange without a AA-5 or higher rating. The manufacturer or other supplier who is asked to deliver a new item to a dealer in exchange for a used one is responsible for determining if the traded-in item is repairable.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assist-

(3) Appeals. Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. [Limitation Order L-225, as Amended Oct. 6,
1944]

ELECTRICAL CONDUIT, ELECTRICAL LIETALLIC TUBING AND RACEWAYS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of ferrous and non-ferrous metals and alloys for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3284.56 Limitation Order L-225— (a) Definition. For the purposes of this order:

(1) "Rigid electrical conduit" means rigid steel or iron pipe (whether or not galvanized, sherardized, enameled, or treated with other protective coating) designed to protect insulated electric wire, cables or conductors for the transmission of electricity, such pipe being manufactured in iron pipe sizes ¼" to 6" inclusive. Rigid electrical conduit shall include, but is not limited to conduit commonly known as "heavy wall conduit".

(2) "Electrical metallic tubing" means steel tubing (whether or not galvanized, sherardized, enameled or treated with other protective coating) designed to protect insulated electric wires, cables, or conductors for the transmission of electricity and manufactured in trade sizes 3%" to 2" inclusive, from the following gauges of steel:

- (h) Extension of ratings for certain conduit and tubing. Notwithstanding the provisions of any priority regulation, any person having a rated order for rigid electrical conduit may extend such rating for an equal amount in linear feet of electrical metallic tubing of the same or smaller size, and any distributor having a rated order for electrical metallic tubing may extend such rating for an equal amount in linear feet of rigid electrical conduit of the same or smaller size.
- (i) Filing of monthly reports of deliveries and inventory of rigid electrical conduit and electrical metallic tubing. On or before the fifteenth day of July, 1943, and on or before the fifteenth day of each succeeding calendar month thereafter, every manufacturer of rigid electrical conduit and electrical metallic tubing shall file with War Production Board, Building Materials Division, Washington 25, D. C., Reference L-225, a report on Form WPB-2474 containing the information required thereon for the preceding month.
- (j) Reports. All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.
- (k) Violations. Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may

be prohibited from making or obtaining further delivery of, or from processing or using material under priority control and may be deprived of priorities assistance.

- (i) Exceptions and appeals.—(1) Production under Priorities Regulation 25. Any person desiring to put in process more metal in the manufacture of rigid electrical conduit, electrical metallic tubing, flexible metal conduit or flexible metal tubing, or raceways than the amounts permitted by this order (including a person who did not put into process any metal for these purposes during 1941) may apply for permission to do so as explained in Priorities Regulation 25.
- (2) Appeals. Any appeal from the provisions of this order, other than the restrictions of paragraphs (b), (c), (d) and (e), should be filed on Form WPB—1477 with the Field Office of the War Production Board for the district in which is located the plant or branch of the appealant to which the appeal relates. No appeal should be filed from the restrictions of paragraphs (b), (c), (d) or (e).
- (m) Applicability of other orders. Insofar as any other order or regulation issued by the War Production Board or to be issued by it hereafter limits the use of any material to a greater extent than the limits imposed by this order, the restrictions of such order shall govern unless otherwise specified therein.
- (n) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

Any person buying feeding oils for animal or poultry feeds or feeding or for resale for use in such feeds or feeding may assume that such oils are not Vitamin A subject to this order.

(7) "Supplier" means any producer (processor of Vitamin A raw materials), importer, or blender of Vitamin A, or any concentrate or Vitamin A or Vitamin A raw materials, or any person who purchases Vitamin A for resale as such without processing. The effect of toll arrangements is explained in paragraph (i) of this order. The term "supplier" does not include an exporter, and a supplier who also exports Vitamin A shall treat his export operations as a separate entity from his other operations for the

purpose of this order.

(8) "Use" means the incorporation of Vitamin A into pharmaceutical or veterinary preparations, foods, feeds, feeding oils, or similar products. The term shall include but is not limited to the blending of Vitamin A with Vitamin D; packaging of Vitamin A into pharmaceutical units; and concentrating of Vitamin A. The term does not include the blending of Vitamin A natural oils or Vitamin A concentrates. Authorization to use Vitamin A for any specific purpose also carries with it authorization to perform all intermediate operations required in the usual manufacturing process. For example, authorization to use Vitamin A for manufacture of A and D capsules also carries authorization to blend Vitamin A and Vitamin D in the required ratios as well as authorization to incorporate the resultant blend into capsules.

(9) "Unit of measure" is expressed in terms of USP-XII units of Vitamin A determined either by animal assay or spec-

trophotometric analysis.

Vitamin A Preparations and Vitamin A Raw Materials—Special Requirements

(b) Limitation on use of Vitamin A in pharmaceutical and veterinary preparations. (1) No person shall manufacture or package any pharmaceutical or veterinary preparation containing more than 5,000 USP-XII units of Vitamin A, including any provitamins A, in the largest recommended daily dosage. Additional amounts of Vitamin A may be added, however, to the extent necessary to provide for loss in potency during the period between original manufacture or packaging and ultimate sale to the consumer. This restriction shall not apply to preparations represented to contain 25,000 or more USP-XII units of Vitamin A, including any provitamins A, in the smallest recommended daily dosage, or to pharmaceutical preparations recognized in the USP or N. F. as in effect October 6,

(2) Appeal from this restriction may be made by filing a letter in triplicate with the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-373, paragraph (b), stating fully the grounds of the appeal.

(c) Restrictions and reports on Vitamin A raw materials. (1) No person shall

use Vitamin A raw materials in excess of 1 billion units per month for any purpose other than the production of Vitamin A natural oils, unless specifically authorized in writing by the War Production Board upon application pursuant to Appendix E.

(2) Each person who receives, holds, processes or disposes of any Vitamin A raw materials representing in the aggregate more than one billion units of Vitamin A per month shall report his inventory, receipts, deliveries and processing of Vitamin A raw materials in accordance with Appendix D. However, this report need not be filed by a fisherman who does not process Vitamin A raw materials or have Vitamin A raw materials processed for him.

(3) The War Production Board may at any time issue special directions to any person with respect to processing Vitamin A raw materials into Vitamin A natural oils or other products.

itamin A-Allocation Requirements

(d) Restrictions on Vitamin A. No supplier shall deliver Vitamin A to any other person, no person shall accept delivery of Vitamin A from a supplier, and no person shall use Vitamin A, except as specifically authorized in writing by the War Production Board upon application pursuant to Appendix B and C.

(e) Users one-time base period report. Each person (including any supplier) shall file with the War Production Board, a one-time report on his past use and inventory in accordance with Appendix A, when he makes his first application for authorization pursuant to Appendix B. This must be filed in addition to the onetime report required by this order as in effect prior to October 6, 1944.

(f) Acceptance of delivery and use of small order quantities. Any person may, without specific authorization, accept delivery of and use one billion USP-XII units or less of Vitamin A in the aggregate during any calendar month.

(g) Small order deliveries by suppliers. Any supplier may; without specific authorization, deliver one billion USP-XII units or less of Vitamin A to any customer in any calendar month, if the total amount delivered on such small orders does not exceed the sum of the following:

(1) The amount which he has been specifically authorized, upon application pursuant to Appendix C, to deliver on

small orders:

(2) The amount which he has been specifically authorized, upon application pursuant to Appendix B, to receive or use for the purpose of filling small

(3) The amount which he himself acquired on small orders and has not used for other purposes;

(4) The amount which he had on hand on October 6, 1944, if he sells exclusively on small orders:

(h) Allocated inventory. Vitamin A allocated for inventory shall not be used or disposed of for any purpose, except as specifically directed by the War Production Board. Material which has not been used for the purpose for which it was allocated shall revert to inventory as if originally allocated to it. Applications for authorization to use Vitamin A allocated for inventory shall be filed pursuant to Appendix B. Pending recelpt of Vitamin A allocated for a particular purpose stocks on hand may be used for that purpose, Provided, That the quantity withdrawn is replaced upon receipt of the allocated Vitamin A.

(i) Toll arrangements. In the case of any toll arrangement where Vitamin A is produced, concentrated, blended or otherwise processed or used by another person for the owner of Vitamin A, the owner shall file the reports and apply for any necessary authorizations and shall be subject to the limitations of this order as if he were performing the operations himself, but deliveries between the owner and the processor under the toll arrangement may be made without

restriction.

(j) Potency variations. An equivalent of Vitamin A of a different potency range may be substituted for the quantity of Vitamin A of the potency range specified in any allogation, without further authorization from the War Production Board, except that a supplier may not vary the authorized potency range without consent of the customer, and except that delivery and use of Vitamin A for feeding oils, feeds and feed concentrates may not be in a potency range higher than that authorized.

(k) Duration of authorization for delivery. If it is not practicable for a supplier to make all deliveries in the month for which authorized, he may complete them as early as practicable in the next month, but the authorization shall terminate if the purchaser fails to place his order before the end of the authorized delivery month or if the purchaser requires postponement of delivery beyond ten days after the authorized month.

(1) Duration of authorization for acceptance of delivery. A purchaser may accept delivery after the authorized month, but shall notify the War Production Board and hold the Vitamin A intact subject to direction from the War Production Board, if he knows or has reason to believe that the shipment was made after the authorization for delivery had expired, or that the supplier had not received an extension of authorization

to make the delivery.

(m) Duration of authorization for use. Authorization to use shall be valid during the authorized month and the following month. Use shall be considered as taking place at the time the material is actually put into process, and process-ing must be completed within two months following the month for which authorized, unless specific authorization is granted at time of application to extend the processing beyond that time. Where extra time is required for processing the application shall state a definite time limit for completion of the processing and shall give the reason for requiring such an extension. Any portion of the authorized quantity of Vitamin A which has not been used at the end of the authorized period shall not be used for any purpose until further authorized by War Production Board.

(n) Special directions. The War Production Board at any time may at its discretion issue special directions to any person with respect to:

(1) Delivery or acceptance of delivery

of Vitamin A.

(2) Preparation of applications and reports under Appendices A, B, C, D and E, subject to approval of the Bureau of the Budget when required by Federal Reports Act of 1942.

(2) Other orders. In addition to the restrictions of this order, the use of Vitamin A in animal and poultry feeds is subject to the provisions of War Food Administration Order WFO-99, as amended

from time to time.

(3) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) Communications to War Production Board. Communications concerning this order shall be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref. M-373.

Issued this 6th day of October 1944.

[MPR 336,1 Amdt. 17]

[F. R. Doc. 44-15475; Filed, Oct. 6, 1944; RETAIL CEILING PRICES FOR PORK CUTS AND CERTAIN SAUSAGE PRODUCTS

> A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

> Maximum Price Regulation No. 336 is amended in the following respects:

> 1. Section 1 is amended to read as follows:

> Section 1. What this regulation does. This regulation fixes dollar-and-cents ceiling prices on all retail sales of fresh and processed pork cuts and on all retail sales of the following sausage products: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, Lebanon bologna, all beef knackwurst, and all beef salami, loaves, Braunschwei-

ger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage. It also fixes ceiling prices on all retail sales of sausage products which you purchase in cans and sell uncanned, including dollar-and-cents ceiling prices for the following: "spiced luncheon meat", "spiced ham", "pressed ham, boneless, chopped", and "pressed pork, boneless, chopped". It also fixes dollar-and-cents ceiling prices on all sales of retail pork cuts and the sausage products subject to this regulation which retail dealers are permitted to make to purveyors of meals. It also fixes dollarand-cents ceiling prices on the meat items covered by this regulation when permission has been granted retail dealers to sell to other retail dealers for resale purposes. The only retail pork cuts which may be sold are those named and priced in section 19 of this regulation. The United States is divided into zones and different ceiling prices depend on the zone where your store is, its group, the pork cut you are selling, the processed product you are selling, or the type and casing, wrapper or container of the sausage product you are selling. A store includes any place where pork cuts or sausage products, subject to this regulation, are sold at retail.

2. Section 2 (a) is amended to read as follows:

(a) You will find your ceiling prices for pork cuts on your "OPA List of Retail Ceiling Prices for Pork Cuts" (Article III, section 19) and for sausage products subject to this regulation on your "OPA List of Retail Ceiling Prices for Sausage Products Covered by Maximum Price Regulation No. 336" (Article III, section 20), and for canned sausage products which you sell uncanned on your "OPA List of Retail Ceiling Prices for Canned Sausage Products Sold Uncanned" (Article III, section 22); on all sales made to individuals for consumption by themselves or their families off your premises. You will also use the same ceiling prices on sales to eating places if the dollar volume of such sales does not exceed 20 percent of your total dollar volume of all sales during any calendar month. If you have not obtained written permission in advance from your appropriate district office, you cannot sell more than 20 percent of the total dollar volume of your sales during any calendar month to purveyors of meals. In exceptional cases where you have been granted permission in advance to sell more than 20 percent of your dollar volume of meats to eating places, your ceiling price on all sales made to eating places shall be the prices on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III, section 21). In those cases where you have been granted permission to make sales to another retail dealer for resale purposes you will find your ceiling prices for such sales on your "OPA List of Retail Ceiling Prices on Specially Authorized Sales to Eating Places or Other Retailers" (Article III. section 21). A copy of these lists for your zone and group will be attached to

(If you are a "Group 3 and 4" store, you should obtain your copy of the complete price list from your regional office of the Office of Price Administration.)

- 3. Section 3 (d) is redesignated section 3 (c).
- 4. Section 3 (d) is added to read as follows:
- (d) On October 11, 1944, the ceiling prices established by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of sausage products which you purchase in cans, but sell uncanned. Those canned sausage products sold uncanned, which conform to the specifications set forth hereinafter for "spiced luncheon meat", "spiced ham", "pressed ham, boneless, chopped", or "pressed pork, boneless, chopped", must not be sold at prices higher than those listed in section 21 (c) (1) or section 22 (a), whichever is applicable. If you purchase canned sausage products which do not conform to the specifications set forth hereinafter for the products listed and sell such products uncanned, you must compute your ceiling price for such products in accordance with the provisions of section 21 (c) (2) or section 22 (b), whichever is applicable. On and after October 11, 1944, you must not sell any sausage product which you purchase in cans but sell uncanned at a price higher than the ceiling prices fixed by this regulation. The specifications for the named canned sausage products are:

(1) "Spiced luncheon meat" means a canned meat product made entirely of pork but not including pork variety meats and edible by-products described in Maximum Price Regulation No. 398; which has a final yield not in excess of 103 percent of the original meat content; and which is packed in either a 3 or 6

(2) "Spiced ham" means a canned meat product made entirely of ham; which has a final yield not in excess of 103 percent of the original meat content; and which is packed in either a

3 or 6 pound container.

(3) "Pressed ham, boneless, chopped" means a canned meat product made of ham trimmings containing no more than 15 percent of trimmable fat; which has a final yield not in excess of 103 percent of the original meat content; and which is packed in a 6, 8 or 10 pound container.

(4) "Pressed pork boneless, chopped" means a canned meat product which contains not less than 80 percent lean picnic trimmings and no more than 20

percent blade meat; which has a final yield not in excess of 103 percent of the original meat content; and which is packed in a 6, 8 or 10 pound container.

5. Section 5 (c) is amended by the addition of a sentence at the end of the second unnumbered paragraph following subparagraph (3) to read as follows:

In the event the official records of the requirements of purveyors of meals under Ration Order No. 16 for the period designated are not available, an estimate of such requirements based upon a survey of purveyors of meals within the area may be substituted therefor.

6. Section 21 is amended by the addition of paragraph (c) to read as follows:

(c) Canned sausage products sold uncanned. If you buy canned sausage products which meet the specifications of the sausage products listed in section 3

(d) and sell them uncanned to purveyors of meals or other retailers under the provisions of sections 5 (c) or 5 (d), you must not charge more than the ceiling prices listed in subparagraph (1) hereof. If you buy canned sausage products which do not meet the specifications of the canned sausage products listed in section 3 (d) and sell them uncanned to purveyors of meals or other retailers under the provisions of sections 5 (c) or 5 (d), you must compute your ceiling prices for such canned sausage products in accordance with the provisions of subparagraph (2) hereof, except that in the event you buy canned hams and sell them uncanned, you must sell them at or below the prices established for the same kind of hams in section 21 (a).

(2) Other canned sausage products sold uncanned. You must compute your retail ceiling prices on all canned sausage products other than those described in section 3 (d) and priced in subparagraph (1) of this section 21 (c) which you sell uncanned to purveyors of meals or other retailers under the provisions of sections 5 (c) or 5 (d) as follows:

(i) Subtract the ceiling price per pound you are authorized to pay your supplier for such item on and after August 4, 1944, from the ceiling price per pound you were authorized to pay for such item before August 4, 1944.

(ii) Subtract the figure obtained by following subdivision (i) above from your ceiling price under the General Maximum Price Regulation for such item when sold to eating places or other retailers. In this event your computed ceiling price for such canned sausage product is less than the price established for the listed similar canned sausage product, you nevertheless must observe the price you obtained by such computation as your ceiling price.

(iii) If you cannot determine your ceiling price for a canned sausage product sold uncanned under subdivisions (i) and (ii) above because you did not have a ceiling price for such product prior to August 4, 1944, you shall determine it under the General Maximum Price Regulation, but in no event may the price so determined exceed the ceiling price for the most similar canned sausage product listed in paragraph (c) (1) of this Section 21.

7. Section 22 is added to read as follows:

Sec. 22. Canned sausage products sold uncanned. If you buy canned sausage products which meet the specifications of the canned sausage products listed in section 3 (d) and sell them uncanned, you must not charge more than the cailing prices listed in paragraph (a) hereof. If you buy canned sausage products which do not meet the specifications of the canned sausage products listed in section 3 (d) and sell them uncanned, you must compute your ceiling prices for such canned sausage products in accordance with the provisions of paragraph (b) hereof, except that in the event you buy canned hams and sell them uncanned, you must sell them at or below the prices established for the same kind of hams in Section 19.

- 26. Section 64 is amended by adding subparagraph (b) (4) and paragraph (e) to read as follows:
- 4. Maximum prices for imported poultry mashes—(i) Unadjusted wholesale price. The maximum price at wholesale for imported poultry mashes shall be computed by adding to the direct cost to the importer at port of entry a markup of 55½ per 100-pound bag. This price shall be subject to adjustment with retailer as specified in subdivision (iii) below.
- (ii) Retail price. The maximum price per pound at retail for imported poultry mashes shall be determined by adding to the unadjusted wholesale price provided in subdivision (i) above, a mark-up of \$1.00 per 100-pound bag and dividing by 100. Where the result contains a fraction of a cent other than an even half cent, the fraction shall be evened to the nearest cent or half cent as follows:

From .01¢ to .25¢ to be reduced to the cent; from .25¢ to .49¢ to be increased to the half cent.

From .51¢ to .75¢ to be reduced to the half cent; from .76¢ to .93¢ to be increased to the next nearest cent.

(iii) Adjustment of wholesale prices on basis of retail price. Where the retail price par pound is required to be adjusted to the nearest cent or half cent as provided in subdivision (ii) above, the wholesale prices shall be adjusted as follows:

The amount of the adjustment per pound shall be multiplied by 100, and this amount shall be absorbed or shared, as the case may be, by the retailer and the wholesaler in the proportion of % by the retailer and ½ by the wholesaler. The wholesale price shall be reduced or increased accordingly.

(e) Filing requirements. Prior to the first sale by the importer of imported mixed feed and thereafter within five days after the receipt in Puerto Rico of a shipment of mixed feed for sale, the importer shall file with the Office of Prica Administration for the Territory of Puerto Rico, a statement setting forth in detail the direct cost to the importer, including the price the importer paid or discounts allowed, all costs of shipment, custom and entry fees, and war risk insurance cost.

This amendment shall become effective October 11, 1944.

Note: The recording and record-keeping provisions of this amendment have been approved by the Burcau of the Budget in accordance with the Federal Reports Act of 1842

Issued this 6th day of October 1944.

[Operations Order 31]

REGISTRANTS UNDER DISTRICT OF COLUMBIA LOCAL BOARD 1 (FOREIGN)

ASSIGNMENT OF SERIAL AND ORDER NUMBERS

Whereas, prior to April 15, 1944, I directed the District of Columbia Local Board No. 1 as to the manner in which serial numbers and order numbers should be assigned to registrants under its jurisdiction who were registered outside the Continental United States, Alaska, Hawaii, and Puerto Rico pursuant to the Proclamation of the President of October 26, 1943, relating thereto, and

Whereas, by virtue of Amendment No. 238 to the Selective Service Regulations (§ 618.5) of June 23, 1944, District of Columbia Local Board No. 1 (Foreign) has succeeded District of Columbia Local Board No. 1 in jurisdiction over such registrants, and

Whereas, it is appropriate to restate in a formal order the instructions concerning the manner in which serial numbers and order numbers are assigned to such registrants,

Now, therefore, pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, I hereby order:

1. The provisions of the Selective Service Regulations, Second Edition, concerning the assignment of serial numbers and order numbers shall not apply to the assignment of serial numbers and order numbers of registrants under the jurisdiction of District of Columbia Local Board No. 1 (Foreign). The assignment of serial numbers and order numbers to such registrants shall be in accordance with this Operations Order. As used in this order, the words "local board" mean District of Columbia Local Board No. 1 for the period prior to June 23, 1944, and District of Columbia Local Board No. 1 (Foreign) for the period commencing on June 23, 1944, and thereafter. As used in this order, the word "registrant" means a registrant now under the jurisdiction of District of Columbia Local Board No. 1 (Foreign).

2. Registrants under the jurisdiction of District of Columbia Local Board No. 1 (Foreign) are, for the purpose of assignment of serial numbers and order numbers, considered as registrants of two separate groups. The first group consists of those registrants born on or after October 17, 1904 and born on or before July 1, 1920. The second group consists of those registrants born on or

after July 2, 1920 and born on or before December 31, 1925, and registrants born on or after December 31, 1898 and born on or before October 16, 1904, and those reaching the 18th anniversary of the day of their birth on or after January 1, 1944. Order numbers shall be assigned as hereinafter provided to such registrants in the first group from the First National Master List (Form 169) and order numbers shall be assigned as hereinafter provided to such registrants in the second group from the Third National Master List (Form 174).

3. The local board shall assign serial numbers and order numbers to registrants in the first group and to registrants in the second group for whom it completes a Registration Card (Form 1) on or before April 15, 1944, in the following manner:

(a) After the local board has transcribed from the Registration Card (Form 1-F) to a white Registration Card (Form 1) for registrants in the first group and to a green Registration Card (Form 1) for registrants in the second group all of the information needed to complete the cards as provide in § 618.11. Selective Service Regulations, it shall place all of the Registration Cards (Form 1) for those registrants who properly belong in the first group together and shall place all such Registration Cards (Form 1) for registrants who properly belong in the second group together. On April 15, 1944, the local board shall thoroughly shuffle or mix the Registration Cards (Form 1) separately for the first group and shall also thoroughly shuffle or mix the Registration Cards (Form 1) separately for the second group so that the location of any card in the pile composing the first group and in the plle composing the second group, and the number it later receives, will be purely a matter of chance.

(b) (1) The local board shall then put on each Registration Card (Form 1) in the first group a serial number in the space marked serial number prefixed by the letter "J." The card that is first in the pile of Registration Cards (Form 1) of the first group after the shufile shall be numbered "1" prefixed by the letter "J" and the second card numbered "2" prefixed by the letter "J," and so on.

(2) The local board shall then put on each Registration Card (Form 1) in the second group a serial number in the space marked serial number, prefixed by the letter "K." The card that is first in the pile of Registration Cards (Form 1) of the second group after the shufile shall be numbered "1" prefixed by the letter "K" and the second card numbered "2" prefixed by the letter "K," and so on.

(3) Each Registration Card (Form 1) in both groups shall have one and only one whole serial number, such as 2994. No fractions shall be used in the first serial numbering of cards.

(4) If errors are made in serial numbering the cards or other irregularities occur, they shall be corrected in the manner prescribed in paragraphs (c), (d), (e), (f), and (g), whichever is applicable.

(c) A local board shall use a serial number only once. If a card is cancelled because of duplication, transfer, or any other reason, the serial number on that card shall not be put on another card.

(d) If a check of the cards shows that a card was not given a serial number, the board shall, if any numbers in the group were skipped, give the card one of the skipped numbers in the group picked by lot; or if no numbers were skipped, the board shall give the card the number following the largest serial number of that group already used by the board.

(e) If two cards in the same group have the same serial number, the board shall pick one of the cards by for to here that number. It chall renumber the other card as prescribed in paragraph

(f) If the local board has two Registration Cards (Form 1) for the came registrant, the cards chould be treated just as if they were cards for two different registrants.

(g) If a card has on it two serial numbers, neither of which is also on another card in the same group, the board shall give it the smaller of the two numbers. If either of the numbers is on another card of the same group, the board shall give to the card having the two numbers the number not on another card in the same group. If both of the two serial numbers are on other cards in the same group, the board shall number the card as prescribed in paragraph (d).

(h) While, or after, serial numbering its Registration Cards, the local board shall make out a List of Registrants (Form 3-B) in quintuplicate for those registrants in the first group and shall make out a separate List of Registrants (Form 3-B) for those registrants in the second group. Within each group, registrants shall be listed in order of their serial numbers with the registrant having Serial Number J-1 or Serial Number K-1, as the case may be, at the top of the list. All numbers from "1" to the largest serial number used in each group shall be listed whether or not each number was given to a registrant.

(i) (1) When the local board has completed the actions provided for above, it shall on April 15, 1944, assign each registrant in the first group an order number by use of the First National Master List (Form 169) and shall also assign each registrant in the second group an order number by use of the Third National Master List (Form 174). The order numbers assigned to registrants of the first group shall be prefixed by the letter "J" and the order numbers assigned to registrants of the second group shall be prefixed by the letter "E."

(2) Order numbers shall be assigned to registrants of the first group as follows: The registrant of the first group whose serial number appears at the top or nearest the top of the First National Master List (Form 169) shall get Order Number 1 prefixed by the letter "J." The registrant whose serial number is next closest to the top of the First National Master List (Form 169) shall get

Order Number 2 prefixed by the letter "J." The registrant whose serial number is third closest to the top of the List shall get Order Number 3 prefixed by the letter "J," and so on until each registrant has an order number. Order numbers must be assigned in sequence; no order number shall be skipped. Serial numbers on the First National Master List (Form 169) which are not held by any registrant of the first group are simply crossed off such First National Master List (Form 169) and ignored.

(3) Order numbers shall be assigned to registrants of the second group in the same manner as order numbers are assigned to registrants of the first group effect that the order numbers in the second group shall commence with numbe 10,001 and be prefixed by the letter "It" and the local board shall use the Third National Master List (Form 174) instead of the First National Master List (Form 169). When the local board is sure that its assignment of order numbers to the first group and to the second group is correct, it shall enter such order numbers on the Registration Cards of the respective groups in the place designated.

(j) (1) If a local board has two Registration Cards (Form 1) for the same registrant in the same group, the card whose serial number comes earliest in the First National Master List (Form 169) or in the Third National Master List (Form 174), as the case may be, shall be given his proper order number. The other card shall be marked "Cancelled. Duplicate."

(2) If a registrant is registered with two local boards, each board shall put an order number on the card it has just as if he were registered with only one local board.

(k) As soon as the order numbering is completed, the local board shall place the order numbers in the first column and will otherwise complete all five copies of the List of Registrants (Form 3-B) for the registrants in the first group and also for the registrants in the second group. The local board shall then post one copy of such DSS Form 3-B in its office, file one copy, furnish one copy to the press, and forward two copies to its State Director of Selective Service.

4. The local board shall assign serial numbers and order numbers to registrants of the first group and of the second group for whom it receives or completes a Registration Card on or after April 15. 1944, in the following manner:

(a) After the local board has transscribed from the Registration Card (Form 1-F) to a white or green Registration Card (Form 1), as the case may be, all of the information required to complete the card as provided in section 618.11, Selective Service Regulations, it shall then determine whether such Registration Card belongs to the first group or to the second group. After making such determination, the local board shall assign serial numbers and order numbers as follows.

(b) If at the time a serial number is to be assigned to a Registration Card (Form 1), there is only one such card on hand. the local board shall place the smallest unassigned serial number in the group

to which the card belongs upon the Registration Card (Form 1). If at the time a serial number is to be assigned to a Registration Card (Form 1), there are two or more such cards of the same group on hand, the local board shall shuffle or mix such Registration Cards (Form 1) so that the location of any card in the pile will be merely a matter of chance. The local board shall then place the smallest unassigned serial number upon the card which is first in the pile, the next smallest unassigned serial number upon the card which is second in the pile and so on until all cards on hand have been given a serial number. The local board shall then find from the First National Master List (Form 169), if the Registration Card (Form 1) properly belongs to the first group, or shall then find from the Third National Master List (Form 174), if the Registration Card properly belongs to the second group, what the registrant's order number would have been if his Registration Card (Form 1) had been received prior to April 15, 1944. The local board shall then assign such registratant the order number which precedes the order number which would have been assigned to him had his Registration Card (Form 1) been received prior to April 15, 1944 and shall add the letter "A" to it as a suffix. For example, if his order number would have been J-37, had his card been received prior to April 15, 1944, the local board shall assign him Order Number J-36-A.

(c) When all serial numbers of the group to which such Registration Card (Form 1) belongs have been assigned, the local board shall not place a serial number on the card next received but shall assign to it Order Number J-1-X if the card belongs to the first group or Order Number K-10,001-X if the card belongs to the second group. The next Registration Card (Form 1) received shall be assigned Order Number J-2-X or Order Number K-10,002-X, as the case may be, and so on. Order numbers with the suffix "X" shall, in sequence of order numbers, follow the highest order number in the first group assigned from the First National Master List (Form 169) or in the second group assigned from the Third National Master List (Form 174). as the case may be. For example, Order Number J-1-X shall immediately follow in sequence of order number the highest order number assigned from the First National Master List (Form 169) and Order Number K-10,001-X shall immediately follow in sequence of order numbers the highest order number assigned from the Third National Master List (Form

5. All actions of District of Columbia Local Board No. 1 and of District of Columbia Local Board No. 1 (Foreign) concerning serial and order numbering registration cards heretofore taken, which are in accordance with and conform to the provisions of this order are hereby ratified and approved.
